

Twiss Green School Improvement Plan 2021-2022 Main Objectives

1 – To develop a systematic approach towards curriculum monitoring to enable subject leaders to have an impact on the quality of the teaching across all years.

2 – To enable all learners to catch-up or exceed their prior potential (summer 2019) after the impact of 2 lockdowns.

3 – To develop a school-wide approach to 'keep-up' and 'catch-up' to ensure consistency and an evidence based approach. (EEF)

4 – To build on already strong behaviour to ensure that positive learning behaviour and relationships are consistent throughout school and that the 'Jigsaw' scheme together with the United Nations Rights of the Child provides the structure for delivering this.

5 – To ensure that our pupils continue to have access to a wealth of enriching opportunities that help them to develop as resilient, confident and independent individuals.

6 – To further develop Governance roles through the reestablishment of three committees with systematic procedures and routine training.
